

Mohawk ARC

3rd Annual Christmas Catalog

2025

Updated 3/10/2026

Terms and Conditions:

- All sales are final, no refunds or returns.
- All products must be picked up in Gardner, MA. We will not consider shipping or delivery. Appointments for pick-up can be made with: paul.topolski@comcast.net
- All payments are cash only. Exact change is appreciated.
- Sale starts at 00:00 Hours, 12/20/2025, and will end at 23:59 Hours, 12/31/2025. During this time, MARC members in good standing will receive a 10% discount off the listed price. For items not sold, feel free to contact us any time during 2025, at the above email address.
- After 00:00 Hours, 12/25/2025, the catalog will be opened up to all radio amateurs at the listed prices. However, Mohawk ARC members in good standing will still receive a 10% discount.
- Our intention is to pass along these products to club members and the amateur radio community at the wish of members and estate families who graciously donated equipment, to further the hobby and financially support the club.
 - With this in mind, purchase requests are served on a first-come-first-served basis, according to your email time/date stamp. However, a priority may be placed on requests from school age licensed youth, then, newly licensed hams. The final decision is at the sole discretion of the MARC executive committee.
- Reasonable offers on non-sold items will be accepted after 1/1/2026. Use the email address above.
- Purchase Process
 - Send an email to paul.topolski@comcast.net with **MARC Christmas Catalog Purchase** on the Subject line.
 - Include in the body of the email:
 - Your contact information including phone number.
 - Call sign
 - Date you were first licensed
 - The product(s) you wish to purchase

New Items – Added 3/10/2026

- The club will entertain all reasonable offers, unless otherwise marked.

Yaesu FT-857D w/Separation Kit, new in box.

- Graciously donated by James Kendall, KC1HDG. James is moving to the Carolinas and needs to lighten his load. Thank you, James. The donations are much appreciated. This radio has not been tested or removed from the box. Since we will not ship the radio, the buyer will have the opportunity to unbox the unit and test it in the lab. **Price: \$750**

SOLD

Clifton Laboratories Z10023B High Pass Filter

- A high-pass filter to attenuate the AM broadcast band.
- Price: \$30

QKR 12V20A LiFePO4 Battery Charger

- This is a dedicated Lithium Iron Phosphate battery charger. It delivers 14.6 VDC at up to 20 Amps. The case and digital voltmeter are included. The unit is shown charging a 12 Volt 20 Amp portable power supply that is not included in the sale. An instruction manual/data sheet can be found here: <https://manuals.plus/asin/B0D69YTW5R> Price: \$40

Heathkit HW-2036A 2-meter FM Transceiver

- This 2-meter transceiver, 1976-ish vintage, is in working condition. The radio has an optional CTCSS encoder. We had this radio on display and demonstrated at the last ARRL New England Division HamXpo.
- Price \$80

MFJ QRP CW Transceiver Kit

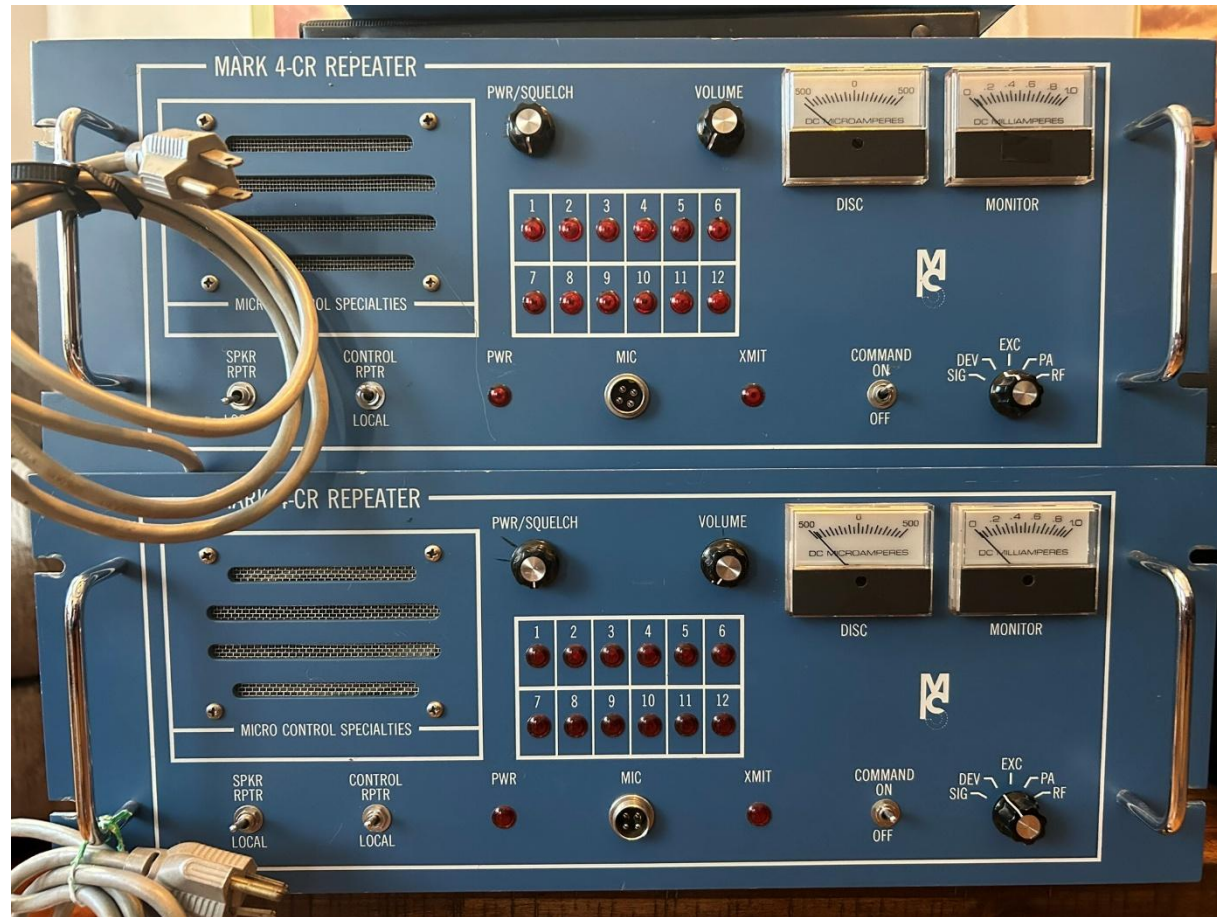

Kit includes:

- MFJ-9040 CW QRP Transceiver
- MFJ-971 Portable Tuner
- MFJ-4114 Battery Pack
- MFJ- 401-1109 Charger

Price: \$80

Mark 4-CR 2-meter Repeaters

Two Mark 4-CR 2-meter repeaters. One is working and one is a parts donor. These are crystal-controlled and has CTCSS decode defeat for use on IRLP, preventing CW / voice IDs and messages are going out over the net.

Price: \$80 for the pair.

Note: Paul Topolski, W1SEX, has a four-can set of high-Q Sinclair duplexer for sale.

Price: \$400. Contact Paul directly at

w1sex@arrl.net

Heathkit Cantenna

Two Heathkit Cantennas, one with oil, one without. Both have the sampling unit.

Price: \$50 each.

One sold, one still available.

Service Instruments, Inc. DC Volts / Ohms VTVM

- Fully refurbished VTVM with new AC power cord.
- Price: \$20

DONATED

- These batteries have three USB ports and come with charging cables
- Price: \$15 each

6,000 / 12,000 mAh Power Banks

- These batteries have a single 5V 12,000 mAh USB port and a single 12V 6,000 mAh port. Chargers are included.

- Price: \$10 each

Comet Vacuum Variable Capacitor

- This Swiss made 20-2000 pF, 5KV/3KV variable capacitor is perfect for a QRO magnetic loop project. Tests good.
- Price: \$90

Realistic Sound Level Meter

- A nice sound pressure level meter, working and calibrated to my trusted meter. Uses a 9 VDC battery, A and C weighted, with fast and slow responses. Measures 60 to 126dB SPL.

- Price: \$20

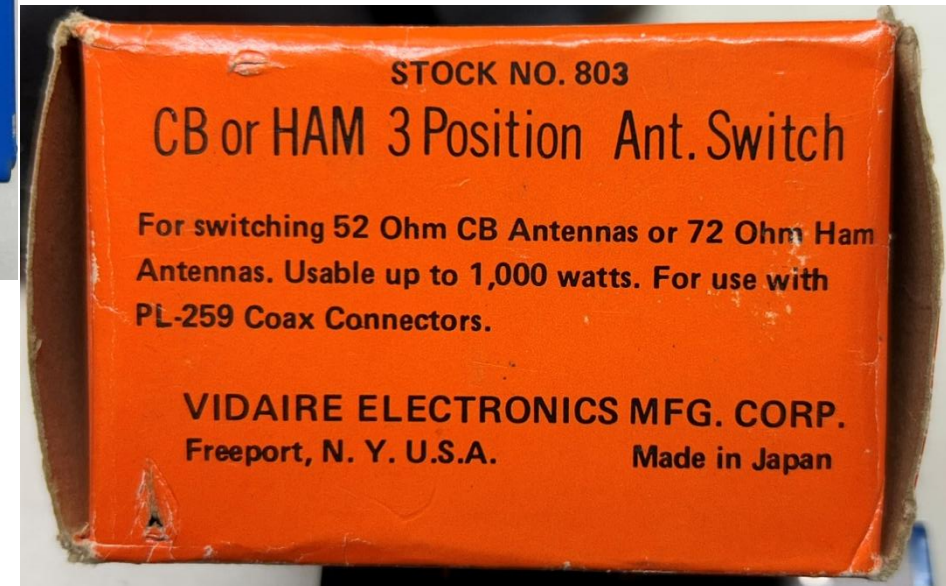

Three Port Pushbutton Coax Switch

- One in, three out (or vice versa) coax switch. Simple
- Price: \$15

SOLD

8Ω, 100 Watt, Non-Inductive Audio Dummy Load

- Price: \$5
